

# THE COPPER CLUB 2026 SCHOLARSHIP PROGRAM

**APPLICATION DEADLINES:**  
**MARCH 2, 2026** (NORTHERN  
HEMISPHERE SCHOOLS)  
AND **MARCH 31, 2026**  
(SOUTHERN HEMISPHERE  
SCHOOLS).

A sustainable energy future requires double today's copper supply. The world needs new supply sources, more recycling, cleaner processing and more efficient use. A critical resource underpins it all: far-thinking new talent. The Copper Club represents the community of copper businesses. To encourage young people to join its ranks, it offers scholarship grants for exceptional students seeking meaningful challenges in a global industry offering rewarding and exciting long-term careers.

## ELIGIBLE CANDIDATES

Studies will be in fields related to the production or use of copper including Engineering (Chemical, Civil, Environmental, Material, Metallurgical, Mining), Geo-Technical Sciences, Data Analytics for Mining, and Mineral Economics.

## WHY APPLY

Over 200 scholarships of up to US\$15,000 have been awarded to undergraduate, Master's and PhD level students since 1994. All applicants can elect to have their resume circulated to all Copper Club businesses to connect to internship and employment opportunities.

## HOW TO APPLY

A package containing an application form and application requirements can be sent to your school. Ask your Professor or Department Head or contact us directly at [jstonge@ssmgt.com](mailto:jstonge@ssmgt.com) for more information!
