

# NEED A SCHOLARSHIP?

The WAAIME Division of SME manages and distributes the largest stand-alone scholarship program in the extractive industries. For more than a hundred years, WAAIME scholarships have helped bring thousands of new engineers and scientists into high-paying mining, metallurgical, petroleum, geological and other related careers. Be a part of the WAAIME legacy and apply for a WAAIME scholarship.

Apply at [www.waaime.org](http://www.waaime.org)

**Applications will be accepted January 1 - 25 for the 2026 - 2027 academic year.**

**References must be received by January 30.**

## ELIGIBLE STUDENTS MUST:

- ◆ have declared their major area of academic study as mining, geological, mineral processing, metallurgical, petroleum engineering or other related engineering or scientific field that directly pertains to the extractive industries.
- ◆ be a member of one of the four AIME technical societies: Society for Mining, Metallurgy and Exploration (<https://www.smenet.org/>), The Minerals, Metals & Materials Society (<https://www.tms.org/>), Association for Iron & Steel Technology (<https://www.aist.org/>) or Society of Petroleum Engineers (<https://www.spe.org/>). To join as a student member, please follow the instructions on one of the referenced websites. Scholarship eligibility is immediate upon joining.
- ◆ be a full-time second-semester freshman, sophomore, junior, senior, or master's degree candidate during the 2026-2027 academic year.
